$$= 50$$

Two boxes, each containing five dots arranged in a cross pattern, followed by an equals sign and the number 50.

$$\boxed{\bullet} = 100$$

$$\boxed{\bullet} \quad \boxed{\bullet} = 100$$

Three boxes, each containing two dots, followed by an equals sign and the number 200.

Three square boxes, each containing four dots arranged in a 2x2 grid, followed by an equals sign and the number 400.

Three boxes, each containing two vertical columns of three dots, followed by an equals sign and the number 600.

Diagram illustrating the value of a square with a dot: $\square \cdot = 1000$

A sequence of six square boxes, each containing a different number of dots. The first box has 1 dot, the second has 2 dots, the third has 3 dots, the fourth has 4 dots, the fifth has 5 dots, and the sixth has 6 dots. To the right of these boxes is an equals sign followed by the number 1500.
